# BUDAPEST RETRO

## Interactive Museum

The Budapest Retro experience center promises an unforgettable nostalgic trip for all members of the family. We can patrol the Gazdagrét housing estate with a real Lada police car, see what Bertalan Farkas took with him into space, or even try our hand at being an announcer in the Híradó studio of the time. And these are just a few of the countless experiences of the facilities presenting thousands of special objects, where we can go back in time from 1960 to 1999.

# THE SPACE

CONTEMPORARY ART GALLERY & MANAGEMENT

## About the Gallery

It was a dream coming true when on the first of June in 2022 I was able to open my own space where I could gather all my projects. The Space is a multifuncional environmental space: it gives place to the exhibitions, curses, it's a common place for the artist and also to the ones who are open to get to know more about art itself. Besides the exhibitions we have special events such as guided tours, workshops and other interesting events indoor. We are looking forward to welcome you.

### Stone – Paper – Scissors – Stone...

Exhibitor(s): (Magyar) Kiss Botond András

Opening: January 10, 2024, 06:00 PM

Rock, paper, scissors... rock, sounds the well-known children's game, where the symbols shaped by our hands decide whether the stone wraps the paper, the paper is cut by the scissors, and the edge of the scissors is cut by the stone, recalling

VISIT BEAUTIFUL SOUTHERN

# ENCELADUS

MORE THAN 100 BREATHTAKING GEYSERS! ← THE HOME OF "COLD FAITHFUL" BOOKING TOURS NOW

The discovery of Enceladus' icy jets and their role in creating Saturn's E-ring is one of the top findings of the Cassini mission to Saturn. Further Cassini mission discoveries revealed strong evidence of a global ocean and the first signs of potential hydrothermal activity beyond Earth – making this tiny Saturnian moon one of the leading locations in the search for possible life beyond Earth.
